PRESS FACT SHEET

Know what you're getting, before you buy a used car.

BIB is a new UK car-buying intelligence app. Enter any registration plate and BIB pulls the full official DVSA MOT history and turns it into a plain-English reliability briefing - what tends to go wrong on that model, how this specific car compares, and what to check before handing over your money.

HOW IT WORKS

- 1 Enter any UK registration.** MOT history is always free, no account needed.
- 2 Review the free preview.** See reliability score and issue flags before spending anything.
- 3 Unlock the full report with 1 Bib.** Mileage analysis, MOT track record, wear guide, and questions to ask the seller.

PRICING

1 BIB
£3

5 BIBS
£12

10 BIBS
£21

No subscription. Pay only when you need a report. Bibs never expire and one Bib unlocks the complete report on any car, permanently.

WHAT'S IN A FULL REPORT

- Vehicle identity verification
- Model reliability score (0-100)
- Full MOT history (always free)
- Component wear guide
- The 3-Year Test
- Comparable alternatives
- Mileage history analysis
- MOT track record
- MOT advisory check
- National MOT intelligence
- Best years to buy
- Questions to ask the seller

"Most people hand over their money hoping for the best. BIB checks the full MOT and reliability record so you don't have to guess."

Adam Scorey, Founder, Superhero Panda

UNDERSTANDING THE DATA

We have a whole page on the Bib website dedicated to explaining the data in the app. Go to: bibapp.io/data
